

# 12.5L Industrial Air Compressor

This air compressor is designed for industrial and professional applications. It features a durable tank and a high-efficiency pump system.

## Overview

### Industrial Air Compression Solution

This 12.5L industrial air compressor is engineered for high performance and energy efficiency in demanding professional environments. Featuring a compact and robust design, the unit offers versatile power options, allowing users to select between electric motor, gasoline, or diesel engines based on operational needs. It is built for longevity, smooth operation, and low maintenance, making it an ideal choice for various pneumatic tools and maintenance applications.

## Performance Metrics

### Rated Displacement

**3 m3/min**

Max Displacement

**0.3 m3/min**

Min Displacement

### Exhaust Pressure

0.8 MPa

## Technical Specifications

### Safety Features

- Pressure relief valve
- Overload protector

### Tank Capacity

12.5 L

### Power Source Options

Electric Motor, Gasoline Engine, Diesel Engine

## Design & Utility

### Portability

Wheel-mounted • Portable • Compact
