Product Overview

High-Performance Metal Cutting Disc

This 125mm abrasive cutting disc is engineered for precision and durability in heavy-duty metalworking applications. Featuring a reinforced resin-bonded design with dual-net construction, it delivers consistent, sharp cutting performance on carbon and mild steel. Designed for use with portable angle grinders, this disc offers high working efficiency and enhanced safety for professional metal fabrication tasks.

Technical Specifications

Dimensions

125 mm

Diameter

3.2 mm

Thickness

22.2 mm

Bore Size

Performance Ratings

12200 RPM

Max Speed

80 m/s

Max Peripheral Speed

Features & Compliance

Construction

- Resin-bonded abrasive
- Reinforced with dual nets
- Designed for portable angle grinders

Certifications

EN12413 • MPA

Suitable Materials

Carbon Steel, Mild Steel, Metal Bars, Metal Tubes
