

125mm Angle Grinder for Cutting and Grinding

This angle grinder is a versatile power tool used for grinding, cutting, and polishing various materials. This model features a 125mm grinding wheel, suitable for a range of applications.

Overview

Professional Performance

This professional-grade 125mm electric angle grinder is engineered for heavy-duty cutting, grinding, and polishing tasks. Featuring a robust 850W motor and a high no-load speed of 10,800 r/min, it delivers consistent power for demanding metalworking and construction projects. Designed with user safety and ergonomics in mind, it includes a side handle for enhanced control and a protective disc guard.
