

125mm Diamond Cutting Disc Set, 10 Pieces

This set contains ten 125mm diameter diamond cutting discs for diverse applications. They are suitable for use with angle grinders or similar power tools to cut materials like tile, stone, and concrete.

Product Overview

Professional Cutting Versatility

This comprehensive set includes ten 125mm diamond cutting discs, engineered to provide high performance across a variety of masonry applications. Designed for compatibility with standard angle grinders, these discs offer the durability and precision required for cutting tile, stone, and concrete. This collection is an essential addition for professionals and DIY enthusiasts requiring a reliable, multi-purpose cutting solution.
