

# 12kW Air-Cooled Diesel Generator

This 12kW diesel generator is air-cooled for effective heat management. Its portable design includes a protective enclosure and wheels for easy positioning.

## Overview

### Reliable Power Generation

This 12kW air-cooled diesel generator is engineered for consistent and efficient power delivery in demanding environments. Featuring a robust protective enclosure and integrated wheels, it offers a balance of high-capacity performance and portability. Designed for silent operation, this unit is an ideal solution for temporary or backup power requirements across various professional applications.

## Technical Specifications

### Rated Power

**12 kW**

Power Output

### Fuel Type

Diesel

### Cooling System

Air-Cooled

## Design & Mobility

### Mobility Features

- Integrated wheels
- Protective enclosure
- Portable design

### Operational Characteristics

Silent Operation, Portable
