Overview

Reliable Power Generation

This 12KW diesel generator set is engineered for consistent and stable power output, suitable for both prime and standby applications. Housed in a durable, soundproof enclosure, it provides excellent noise reduction and protection against harsh environmental factors. The system includes advanced safety mechanisms such as overload protection and low oil shutdown, ensuring long-term durability and secure operation for residential, commercial, or industrial needs.

Features & Compliance

Key Features

- Automatic Transfer Switch (ATS) capability
- Soundproof enclosure for noise reduction
- Weather-resistant cabinet design
- User-friendly control panel for monitoring
- Overload protection
- Low oil shutdown safety mechanism

Certifications

CE, ISO 9001
