

12L Electronic LED Dehumidifier with Carbon Filter

This dehumidifier removes up to 12 liters of moisture per day. It features an electronic LED display and an activated carbon filter.

Product Overview

Compact and portable design suitable for various residential room sizes.

Efficient Moisture Control

This portable electronic dehumidifier is designed to maintain optimal humidity levels in small to medium-sized indoor spaces. It features an integrated activated carbon filter to help purify the air by reducing odors and allergens. With a daily moisture removal capacity of 12 liters and an intuitive LED display, it offers a reliable solution for a healthier and more comfortable home environment.

Performance
