

12L Mini Fridge for Cosmetics and Skincare

This 12L mini fridge is designed for storing cosmetics and skincare products. As an electric appliance suitable for home use, it provides convenient cooling to preserve the quality of beauty essentials.

ADDITIONAL IMAGES

Overview

A compact 12L solution for maintaining the quality and efficacy of skincare and cosmetic products.

Premium 12L Skincare & Cosmetic Preservation

This 12L mini fridge is specifically engineered for the professional storage of high-end cosmetics and skincare products. Utilizing advanced semiconductor refrigeration, it maintains an optimal environment to extend the shelf life and efficacy of temperature-sensitive beauty essentials. Its compact, stylish design makes it a perfect addition to home vanities or professional beauty studios.

Technical Performance

Key Performance Metrics

12 L Capacity	45 W Power Consumption	20 °C Max Cooling Below Ambient
-------------------------	----------------------------------	---

Refrigeration Principle	Semiconductor Refrigeration
--------------------------------	-----------------------------

Insulation Type	PU FOAM
------------------------	---------

Electrical Specifications

Included Power Cables

Cable Type	Length
Car Charger Cable	2m
Household Cable	1.8m

Operating Voltage	AC 100V-240V
-------------------	--------------

Compliance & Quality

Quality Assurance Process

- IQC (Incoming Quality Control) for all parts
- First piece inspection before bulk production
- IPQC (In-Process Quality Control) routing inspections
- 100% inspection before final packing
- OQC (Outgoing Quality Control) prior to delivery

Product Certifications	CB, CE, KC, ETL, LFGB, GS, PSE, RoHS
------------------------	--------------------------------------

B2B Logistics

Ordering Information

Parameter	Value
