

12mm Tape Feeder for SMT Placement Machines

This 12mm tape feeder is designed for SMT placement machines. It ensures reliable and accurate delivery of 12mm components.

Product Overview

12mm tape feeder unit designed for modular placement systems.

High-Precision SMT Feeder

This 12mm tape feeder is specifically engineered for modular placement machines, ensuring accurate and reliable component delivery in high-speed assembly environments. Designed for seamless integration into existing SMT systems, the unit contributes to optimized production efficiency and minimal machine downtime. Built for demanding industrial operations, this component maintains performance standards for continuous assembly workflows.

Technical Specifications

Feeder Width	12 mm
Model Number	00141271-04
Equipment Compatibility	X Series Modular Placement Machines

Certifications & Standards

Safety Compliance	CE
-------------------	----

Product Compatibility List

Available Feeder Variants

Feeder Type	Part Numbers
8MM Single card	00141270 / 00141290
8MM Double card	00141269 / 00141289
12MM	00141271 / 00141291
16MM	00141272 / 00141292
24MM	00141273 / 00141293
32MM	00141274 / 00141294
44MM	00141275 / 00141295
56MM	00141276 / 00141296
72MM	00141277 / 00141297
88MM	00141278 / 00141298
