

12mm Tape Guide for Electronic Assembly

This tape guide is compatible with CP7, CP8, and XP machinery. It ensures accurate and reliable tape feeding in automated assembly processes.

Product Overview

Precision Tape Guides for Electronic Assembly

These precision-engineered tape guides are designed to ensure accurate and reliable tape feeding in automated assembly environments. Compatible with a wide range of machinery including CP series, XP, and IP3 systems, these components are essential for maintaining consistent performance in high-speed production lines. They support various tape widths and thicknesses to accommodate diverse electronic assembly requirements.

Compatibility & Specifications

Available Tape Guide Models

Model Reference	Tape Width (mm)	Thickness/Size (mm)
AKJAC9050	8	1.8
AKJAC9070	12	2.5
AKJAC9080	8	1.0-1.8
AKJBC7040	12	1.3-3.7
ALPC8032/ALPC8030	8	1.0
ALPC8040/ALPC8041	8	1.3
AMCA4200/AMCA4201	8	1.0
AMCA4300/AMCA4301/AMCA4302	8	1.3
AMCA4400/AMCA4401/AMCA4403	8	1.8
AMCB3400/AMCB3402/AMCB3403	12	2.5
AMCC3100/AMCC3107/AMCC3108	16	3.7
AWCD4201/AWCD4202	24	5.0
ABFCA Series	8	1.3
KJAC0190/KJAC0192	8	0.7
KJAC1110	8	0.7
KJPC0020	8	0.4

Compatible Machinery Series

CP2, CP3, CP6, CP7, CP8, CP42, CP43, XP, IP3, BFE
