

12V 100Ah Valve Regulated Lead-Acid Battery

This valve regulated lead-acid battery is designed for reliable power storage. It features a 12V nominal voltage and 100Ah capacity.

Overview

Reliable Power Storage Solution

This Valve Regulated Lead-Acid (VRLA) battery is engineered for dependable energy supply across a wide range of industrial and commercial applications. With a nominal voltage of 12V and a capacity of 100Ah, it provides consistent performance for critical power needs. Its sealed design ensures maintenance-free operation, making it an ideal choice for reliable power storage requirements.

Technical Specifications

Nominal Voltage	12 V
Rated Capacity	100 Ah
Battery Technology	Valve Regulated Lead-Acid (VRLA)
Model Designation	6-GFM-100
