

# 12V 10Ah VRLA Battery for Electric Bicycles

This sealed VRLA battery is designed for electric bicycles. It has a 12V, 10Ah capacity and is CE and UL approved.

## Overview

### High-Performance VRLA Battery

This 12V 10Ah VRLA battery is specifically engineered for electric bicycle applications, offering reliable power delivery and consistent performance. Designed for durability and safety, it features a sealed construction and meets international certification standards. It is an ideal solution for cycle-use applications requiring a 20-hour discharge rate.

## Technical Specifications

Rated Voltage	12 V
Rated Capacity	10 Ah
Discharge Rate	20HR

## Charging Parameters

Cycle Use Voltage	14.4-15.0V
Standby Use Voltage	13.5-13.8V
Max Initial Current	2.5 A

## Certifications

Certifications	CE, UL, ISO 9001-2000
