Overview

Reliable E-Bike Power Solution

This 12V 12Ah lead-acid battery is designed specifically for electric bicycles, offering a dependable power source for daily commuting and extended rides. Engineered for durability and maintenance-free operation, it features a robust construction that ensures consistent performance. With compliance to international safety and quality standards, this battery is a trusted choice for various electric vehicle applications.

Technical Specifications

Nominal Voltage	12 V
Rated Capacity	12 Ah
Model Number	6-DZF-12
Battery Chemistry	Lead Acid

Physical Dimensions

Dimensions

151 mm
Length

100 mm
Width

99 mm
Height

Weight	4.3 KG
