

12V 14Ah Sealed Lead-Acid Battery

This sealed VRLA battery is CE and UL approved. It features a 12V voltage rating and a 14Ah capacity at a 20-hour discharge rate.

Product Overview

Reliable Power for Electric Mobility

This 12V 14Ah sealed lead-acid battery is engineered for consistent and stable performance in cyclic applications. Specifically designed for electric bicycles and similar mobility devices, it ensures reliable power delivery during operation. With a focus on safety and compliance, this VRLA battery meets international standards, making it a dependable choice for your power needs.

Technical Specifications

Nominal Voltage	12 V
Capacity	14 Ah
Discharge Rate	20-hour
Model Identifier	6FM14

Certifications & Compliance

Safety Standards	CE, UL
------------------	--------

Usage Information

Common Applications

- Electric Bicycles
- Cyclic Use Applications
- General Mobility Devices
