

12V 150Ah AGM VRLA Battery

This is a 12V 150Ah AGM VRLA (Absorbent Glass Mat Valve Regulated Lead Acid) battery. It is a maintenance-free, sealed lead-acid battery designed for various applications and is non-spillable.

Overview

High-Performance AGM VRLA Battery

This 12V 150Ah AGM VRLA battery is engineered for reliability and longevity in critical power applications. Utilizing advanced oxygen recombination technology, it offers a maintenance-free solution with a design life of 8 years. Its robust construction, featuring high-purity raw materials and a high-quality AGM separator, ensures stable performance, low self-discharge rates, and extended cycle life.

Technical Specifications

Nominal Voltage	12 V
Nominal Capacity	150 Ah
Design Life	8 years

Construction & Materials

Plate Grid Alloy	PbCaSn alloy
Container Material	ABS (Flame-retardant optional)

Features

Key Features

- Maintenance-free oxygen recombination technology
- High-purity raw materials for low self-discharge
- High-quality AGM separator for extended cycle life
- Non-spillable design

Applications

Typical Applications

UPS, Network Communication, Emergency Backup, Alarm Systems, Security Systems

Safety & Compliance

Certifications

CE

Safety Warnings

- Risk of fire, explosion, or burns
- Do not disassemble
- Do not heat above 60°C
- Do not incinerate
- Battery must be recycled
