

12V 200Ah Automotive Lead-Acid Battery

This 12V 200Ah lead-acid battery is designed for automotive applications. The sealed maintenance-free battery features Calcium-Calcium technology for enhanced performance and durability.

Product Overview

High-Performance Automotive Power

This 12V 200Ah automotive lead-acid battery is engineered for reliability and high stability in demanding vehicle applications. Featuring a sealed, maintenance-free design with advanced calcium-calcium technology, it offers superior cold cranking capacity and resistance to vibration. Its robust polypropylene casing and heat-sealed construction ensure long-lasting performance and protection against electrolyte leakage.

Technical Specifications

Voltage	12 V
Capacity	200 Ah
Dimensions (L x W x H)	506 x 264 x 216 x 238 mm
Model	N200MF

Key Features

Maintenance

Sealed Maintenance-Free

Construction Highlights

- Special Lead Plate Design
- Anti-acid casing
- Anti-shake design
- Polypropylene case
- Heat-sealed for rigidity

Performance Capabilities

1 Excellent

Cold Cranking Performance

1 Excellent

Cold Resistance

Compatibility

Application Standard

Japan Standard

Compatible Vehicles

Japanese Automobiles
