

12V 200Ah Lead-Acid Starter Battery

This is a high-performance 12V 200Ah lead-acid starter battery engineered to meet Japan Standard specifications. The maintenance-free design ensures reliable starting power and long-lasting performance in automotive applications.

Product Overview

High-Performance Starter Battery

This 12V 200Ah maintenance-free lead-acid battery is engineered for reliability and high starting power. Designed for versatility, it is suitable for a wide range of automotive applications and internal combustion engines, providing consistent ignition and lighting performance. The unit features a low-maintenance sealed design, ensuring long service life and high safety standards without the need for water or acid supplements.

Technical Specifications

Voltage

12 V

Voltage

Capacity (C20hr)

200 Ah

Capacity

External Dimensions (L x W x H)

515 x 271 x 242 mm

Key Features

Maintenance

Maintenance-Free • No water supplement required • No acid maintenance required

Performance Traits

- Strong starting ability
- Low self-discharge
- Long service life
- High safety design
- Liquid charge included

Applications

Suitable Applications

Automobiles, Tractors, Internal combustion engines, Ignition systems, Lighting systems
