

# 12V 200PSI Tire Inflator with Gauge

This is a compact 12V tire inflator for car accessories. It features a built-in pressure gauge, on/off switch, and cigarette lighter adapter.

## Product Overview

### High-Performance 12V Tire Inflation

This compact 12V tire inflator is designed for rapid and reliable pressure management, capable of reaching up to 200PSI. Featuring an integrated pressure gauge, an intuitive on/off switch, and a standard cigarette lighter adapter, it offers a seamless, plug-and-play solution for automotive maintenance. Its durable build and included air hose with a tire valve connector ensure efficient operation in various professional and personal settings.

## Technical Specifications

Maximum Pressure	200 PSI
Operating Voltage	12 V
Model Identifier	S.N.-826-3

## Features

### Key Components

- Integrated pressure gauge
- On/off power switch
- Cigarette lighter adapter
- Flexible air hose
- Tire valve connector

Certifications	CE
