

12V 20Ah Lead-Acid Battery for Electric Vehicles

This 12V 20Ah lead-acid battery provides a dependable power source for electric vehicles. It is designed for long service life and consistent performance.

Product Overview

High-Performance Lead-Acid Battery

This 12V 20Ah lead-acid battery is engineered for reliable and consistent power delivery in demanding applications. Designed with robust construction, it offers excellent durability and long service life, making it an ideal power source for electric vehicles, UPS systems, and solar power storage. Built with advanced technology, this unit ensures stable voltage output and efficient operation for power-dependent equipment.

Technical Specifications

Nominal Voltage	12 V
Rated Capacity	20 AH
Model Number	6-DZF-20
Battery Type	Lead Acid

Physical Characteristics

Dimensions (L*W*H)	180*76*170mm
Weight	6.8 KG

Compliance & Standards

Certifications	ISO9001, ISO4001, CE, RoHS, REACH
----------------	-----------------------------------
