Product Overview

Versatile Thermal Control

This 20-litre portable mini fridge offers a dual-function design capable of both cooling and warming, making it an essential companion for both vehicle travel and home use. Built with a durable tempered glass door and solid polyurethane foam insulation, it ensures temperature stability and longevity. The unit is powered by a long-life brushless motor, providing reliable performance for up to 30,000 hours of operation.

Technical Specifications

Volume Capacity	20 L
Power Consumption	78 W
Cooling Capacity	26-30°C below ambient temperature
Heating Capacity	50-65°C via thermostat

Power & Compatibility

Supported Power Inputs	DC 12V, AC 100V-240V
------------------------	----------------------

Construction & Durability

Motor Lifespan

30000 hours

Operating Hours

Insulation Material	Solid Polyurethane Foam (PU Foam)
Door Finish	Tempered Glass
