

12V 22Ah VRLA Battery for Electric Bicycles

This sealed VRLA battery is designed for electric bicycles. It has a 12V voltage rating and a 22Ah capacity at a 20-hour discharge rate.

Overview

High-Performance VRLA Battery

This 6FM22 sealed VRLA battery is engineered specifically for electric bicycle applications. It offers a reliable 12V voltage rating with a 22Ah capacity at a 20-hour discharge rate, ensuring consistent power delivery for your mobility needs. Designed for durability and safety, this unit meets international standards including CE and UL certifications.

Electrical Specifications

Voltage Rating	12 V
Capacity	22 Ah
Discharge Rate	20-hour

Charging Parameters

Cycle Voltage	14.4 - 15.0V
Standby Voltage	13.5 - 13.8V
Max Initial Current	6.6 A

Compliance & Safety

Safety Warnings

- Do not short circuit
- Sealed VRLA construction

Certifications	CE, UL
