

# 12V 32Ah Lead-Acid Battery for Electric Bicycles

This 12V 32Ah lead-acid battery is designed for electric bicycles. It provides reliable power and long-lasting performance.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Electric Bicycle Power Solution

This 12V 32Ah lead-acid battery is engineered specifically for electric bicycle applications, offering a reliable and durable energy source. Designed for consistent power output and longevity, it supports the demands of daily commuting and recreational riding. The unit features robust construction and adheres to international quality standards, ensuring a dependable performance for your electric mobility needs.

## Technical Specifications

Nominal Voltage	12 V
Rated Capacity	32 Ah
Model Number	6-DZF-32
Battery Chemistry	Lead-Acid

## Physical Dimensions

Dimensions (L x W x H)	266 x 76 x 170 mm
Weight	9.7 kg

## Compliance & Standards

Certifications	CE, ISO 9001, ISO 4001
