

12V 32Ah Lead-Acid Battery

This 12V 32Ah lead-acid battery is designed for starting and powering applications. It features robust construction and reliable performance, suitable for automotive and industrial use.

Overview

Reliable Power Solution

This 12V 32Ah lead-acid battery is engineered for consistent performance in starting and power-dependent applications. Built with robust construction, it offers the durability required for both automotive and demanding industrial environments. Its design ensures reliable energy delivery, making it a dependable choice for professional equipment needs.

Technical Specifications

Rated Voltage	12 V
Capacity	32 Ah
Model Number	6QA-32
Application Type	Automotive, Industrial, Starting
