

12V 36Ah Automotive Storage Battery

This 12V 36Ah automotive storage battery is designed for starting, lighting, and ignition (SLI) applications. The dry-charged storage battery ensures a longer shelf life before activation.

Product Overview

High-Performance Automotive Storage

This 12V 36Ah automotive storage battery is engineered for reliable starting, lighting, and ignition (SLI) applications. Designed as a dry-charged storage battery, it offers an extended shelf life prior to activation, making it an ideal solution for inventory management and long-term storage. Its robust construction ensures consistent performance and durability for a wide range of compatible vehicle models.

Technical Specifications

Rated Voltage	12 V
Capacity	36 Ah
Dimensions (L x W x H)	199 x 128 x 201 x 221 mm
Battery Type	Dry Charged Storage Battery

Compatibility

Compatible Vehicle Makes	Daihatsu, Honda, Hyundai, Nissan, Perodua, Toyota, Suzuki
