

# 12V 3Ah Lithium Motorcycle Starting Battery

This 12V/3Ah lithium motorcycle battery is engineered for reliable starting power. Its advanced lithium technology ensures enhanced energy density and a longer lifespan.

### ADDITIONAL IMAGES

## Product Overview

### High-Performance Lithium Starting Battery

This 12V 3Ah lithium motorcycle starting battery offers a direct, high-performance replacement for traditional lead-acid batteries. Engineered with advanced LiFePo4 technology, it delivers superior starting power, exceptional cycle life, and significant weight reduction. Its intelligent design includes dual explosion-proof patented technology and military-grade electronic components to ensure safety and reliability in diverse operating conditions.

## Technical Specifications

Voltage	12 V
Capacity	3 Ah

## Performance Metrics

### Key Performance Indicators

<b>240 A</b> Sustained Current	<b>120 A</b> Starting Current	<b>1200 Cycles</b> Cycle Life
-----------------------------------	----------------------------------	----------------------------------

## Physical Dimensions

### Physical Dimensions

Dimension	Value	Unit
Length	113	mm
Width	71	mm
Height	85	mm

Weight	360 g
--------	-------

## Operating Conditions

Working Temperature	-15 to 75°C
Charge Time	3 H

## Features & Compliance

Certifications FC • CE • RoHS	
Key Features	LiFePo4 Chemistry, Dual Explosion-Proof, Low Self-discharge, High Temperature Resistant, Energy Saving
