

# 12V 45Ah Automotive Lead-Acid Battery

This 12V 45Ah lead-acid battery is designed for automotive applications. The sealed, maintenance-free battery features Calcium-Calcium plates for enhanced performance and durability.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Automotive Power

This 12V 45Ah automotive battery is engineered for consistent starting power and long-term stability. Featuring a sealed, maintenance-free design with specialized lead plates, it offers excellent cold cranking capacity and resistance to vibration. Built to Japan Standard specifications, this battery provides a durable and leak-resistant solution for various vehicle applications.

## Technical Specifications

### Maintenance Type

Sealed • Maintenance-free

Voltage	12 V
Capacity	45 Ah
Dimensions (L x W x H)	237 x 127 x 200 x 220 mm

## Performance Features

### Key Features

- Special lead plate design
- Anti-acid and anti-shake construction
- Excellent cold cranking capacity
- Heat-sealed design for maximum strength
- Polypropylene case for vibration protection

Primary Application	Japan Car
Standards	Japan Standard
