

12V 45Ah Automotive Lead-Acid Battery

This 12V lead-acid battery is designed for starting, lighting, and ignition in vehicles. It features a 45Ah capacity and a 430A cold cranking amp (CCA) rating.

Overview

Reliable Automotive Power

This 12V lead-acid battery is engineered for consistent starting, lighting, and ignition (SLI) performance in automotive applications. With a 45Ah capacity and a robust 430A cold cranking amp (CCA) rating, it ensures dependable vehicle starts even in demanding conditions. Designed for durability and efficiency, this model is a versatile solution for a wide range of standard vehicle power requirements.

Technical Specifications

Cold Cranking Amps

430 A

CCA (BCI Standard)

Rated Voltage	12 V
Rated Capacity	45 Ah
Model Number	58-50

Features

Application Compatibility	Starting, Lighting, Ignition
