

12V 48Ah Automotive Lead-Acid Battery

This 12V 48Ah lead-acid battery is designed for automotive applications. Its robust construction ensures durability and reliable performance for starting, lighting, and ignition systems.

Product Overview

Reliable Automotive Power

This 12V 48Ah lead-acid battery is engineered specifically for automotive applications, ensuring consistent performance for starting, lighting, and ignition (SLI) systems. Built with a robust construction, it is designed to withstand the demands of vehicle operation while meeting rigorous industry standards for safety and reliability. Its dependable power delivery makes it an ideal choice for maintaining vehicle electrical systems.

Technical Specifications

Rated Voltage

12 V

Voltage

Rated Capacity

48 Ah

Capacity

Model Identifier

6-QA-48

Application & Usage

Primary Applications

Starting Systems, Lighting Systems, Ignition Systems, Automotive
