

12V 54Ah Lead-Acid Automotive Battery

This 12V 54Ah lead-acid battery is designed for automotive starting. It provides reliable power for vehicles needing a dependable starting power source.

Product Overview

Reliable Automotive Starting Power

This 12V 54Ah lead-acid battery is engineered specifically for automotive starting applications. Designed to provide consistent and dependable performance, it serves as a robust power source for various vehicle ignition systems. Its construction ensures reliability for daily operation, making it a practical choice for standard automotive needs.

Technical Specifications

Battery Technology

Lead-Acid • Automotive Starting

Rated Voltage	12 V
Rated Capacity	54 Ah
Model Number	6QA-54
