Product Overview

Reliable Power Solution

This 12V 75Ah lead-acid battery is designed for consistent starting power and performance in diverse automotive applications. Featuring a sealed maintenance-free construction, it eliminates the need for regular water refilling while ensuring robust resistance to vibration and corrosion. Engineered to meet or exceed original equipment specifications, it provides long-lasting durability for various vehicle requirements.

Technical Specifications

Voltage

12 V

Nominal Voltage

Capacity

75 Ah

Capacity

Battery Type

Sealed Maintenance Free (SMF) Lead-Acid

DIN Size

DIN75

Features

Key Features

Maintenance Free, High Power Output, Vibration Resistant, Corrosion Resistant

Environmental

Environmental Compliance

Recyclable • Lead (Pb)
