

# 12V 90Ah Automotive Starting Battery

This is a 12V/90Ah starting battery designed for automotive applications. The battery has clearly marked upper and lower level indicators.

## Overview

### High-Performance Starting Power

This 12V 90Ah automotive starting battery is engineered for reliability and consistent performance. Designed to deliver strong starting power, it features excellent vibration resistance and long-lasting storage capabilities. It is an ideal solution for vehicles requiring a robust and dependable power source for ignition and electrical systems.

## Technical Specifications

Rated Voltage	12 V
Rated Capacity	90 Ah

## Key Features

### Key Performance Attributes

Long Battery Life • High Starting Power • Vibration Resistant • Excellent Storage Performance

## Maintenance

### Maintenance Indicators

- Upper level indicator
- Lower level indicator
