

12V Automotive Battery, 65Ah, 520A (SAE)

This 12V automotive battery is designed to provide reliable starting power. It has a capacity of 65Ah and a cold cranking amp (CCA) rating of 520A (SAE).

Overview

High-Performance 12V Automotive Battery

This 12V automotive battery is engineered to provide reliable starting power for a wide range of vehicles. With a 65Ah capacity and a 520A Cold Cranking Amp (CCA) rating, it ensures consistent engine ignition across various weather conditions. Designed for durability and long-lasting performance, it is an ideal choice for professional automotive applications.

Performance Metrics

Key Performance Metrics

12 V

Voltage

65 Ah

Capacity

520 A (SAE)

Cold Cranking Amps

Technical Specifications

Model Designation	75D23L
Nominal Voltage	12 V
Rated Capacity	65 Ah
Cranking Amps (SAE)	520 A

Application & Features

Key Features

- Reliable starting power
- All-weather performance
- Durable construction
- Long-lasting service life

Primary Application	Automotive engine starting
Standards	SAE, 12V System
