

12V Automotive Electric Blanket

This electric blanket is designed for use in vehicles, plugging into a 12V car adapter for power. It is made of soft fleece material and provides warmth during travel.

Product Overview

Comfort for Every Journey

This 12V automotive electric blanket is designed to provide consistent warmth during travel, making it an essential accessory for road trips, camping, or emergency roadside situations. Crafted from soft, semi-cosy polyester fleece, it ensures comfort while maintaining durability. The unit features automatic temperature control and a safe, reliable connection to your vehicle's standard power outlet.
