

# 12V Automotive Lead-Acid Battery

This 12V lead-acid battery provides reliable starting power for automotive applications. It is designed for durability and consistent performance in various operating conditions.

## Product Overview

### High-Performance Automotive Power

This 12V lead-acid battery is engineered for reliable starting power and consistent performance across diverse automotive applications. Designed with robust construction, it offers excellent durability and vibration resistance for passenger vehicles, trucks, and heavy-duty equipment. Its high-capacity design ensures dependable operation in demanding conditions.

## Technical Specifications

Voltage	12 V
Capacity	165 Ah
Model Identifier	6-QA-165
Battery Type	Lead-Acid

## Performance Features

### Suitable Applications

- Passenger Vehicles
- Trucks
- Automotive Equipment

### Key Features

High Vibration Resistance, Reliable Starting Power, Automotive Grade, Durable Construction
