

12V Automotive Lead-Acid Battery

This 12V lead-acid battery provides reliable starting power for automotive applications. Its durable construction is designed for long-lasting performance in a variety of vehicles.

Overview

Reliable Automotive Power

This 12V lead-acid battery is engineered specifically for automotive starting applications, providing consistent and reliable power delivery. Built with a durable construction, it is designed to withstand the rigors of vehicle operation and ensure long-lasting performance. Ideal for various automotive needs, this unit offers a dependable solution for professional vehicle maintenance and replacement requirements.

Technical Specifications

Battery Chemistry

Lead-Acid • Automotive

Rated Voltage	12 V
Rated Capacity	135 Ah
Model	6-QA-135T
