

# 12V Cordless Brushless Drill Driver

This 12V cordless drill driver features a brushless motor, offering increased efficiency and longer runtime. Its 2-speed gearbox provides versatility for both high-speed drilling and high-torque driving.

## Overview

### Professional Performance in a Compact Form

This 12V cordless drill driver features advanced brushless motor technology, delivering increased efficiency, longer runtime, and an extended motor lifespan compared to traditional brushed models. Designed for versatility, the 2-speed gearbox allows for seamless switching between high-speed drilling and high-torque driving tasks. Its ergonomic construction ensures comfortable handling, while the integrated LED light improves visibility in low-light work environments.

## Technical Specifications

Voltage	12 V
Motor Type	Brushless
Gearbox	2-speed

## Power & Battery

Battery Technology	Lithium-ion
Battery Features	Memory-free, Low self-discharge

## Features

### Key Features

- Integrated LED work light
- Ergonomic handle design
- Compact and lightweight
- Cordless portability

### Application Suitability

Drilling • Driving
