

12V DC Brushless Axial Fan 120x120x25mm

This 120mm x 120mm x 25mm DC axial fan is designed for cooling electronic components and systems. It operates on 12V DC power and features a brushless DC motor for reliable and efficient performance.

Product Overview

High-Efficiency Thermal Management

This 120mm DC brushless axial fan is engineered for effective heat dissipation in diverse electronic systems. Utilizing a brushless DC motor, the unit provides reliable, long-life performance with minimal acoustic output. Designed for ease of integration, it features a standardized frame size and mounting layout suitable for cooling enclosures, power supplies, and sensitive hardware.
