Product Overview

Efficient DC Cooling Solution

The HS-35B is a versatile 12V DC air cooler fan engineered for reliable performance in environments where standard AC power is unavailable. Featuring a substantial 40L water tank and powerful 5000m³/h airflow, this unit provides effective evaporative cooling for spaces between 25-50 square meters. Its compact, portable design makes it an ideal choice for vehicles, off-grid cabins, or localized cooling in workshops and offices.

Technical Specifications

Power & Voltage

100 W

Power Consumption

12 V DC

Voltage

Performance

5000 m³/h

Air Flow

40 L

Water Tank Capacity

Operational Features

- Timing range: 1-12 Hours
- Applicable area: 25-50m²

Logistics & Dimensions

Dimensions & Weight

Metric	Value
Size	540*450*1120mm
Gross Weight	16.5 KGS
Net Weight	14.5 KGS

Shipping Information

261 PCS per 40HQ
