

# 12V Li-ion Brushless Impact Driver

The 12V Li-ion Brushless Impact Driver is engineered for high-performance fastening. Featuring a robust brushless motor, it delivers enhanced power and extended runtime.

## Overview

### High-Performance Impact Driver

This 12V Li-ion Brushless Impact Driver is engineered for efficient, high-performance fastening in professional environments. Featuring a robust brushless motor, it provides enhanced power and extended runtime compared to standard models. Its compact, lightweight design ensures comfortable handling and excellent accessibility in tight, confined spaces.

## Performance

### Variable Speed Settings

**1200 rpm**  
Low Speed

**2400 rpm**  
Medium Speed

**3000 rpm**  
High Speed

### Motor Technology

Brushless Motor

## Features

### Key Features

- Variable speed trigger for precision control
- Quick-release chuck for rapid bit changes
- Integrated LED work light for visibility
- Compact and lightweight ergonomic design

## Power System

Voltage	12 V
Battery Chemistry	Li-ion
