

12V Li-ion Cordless Drill with 10mm Bit Capacity

This cordless drill has a rated voltage of 12V and a no-load speed of 0-700/min. It has a bit capacity of 10mm and weighs 1.04kg.

Product Overview

Professional Cordless Performance

This 12V Li-ion cordless drill is engineered for versatility in various drilling and fastening applications. Featuring a robust motor and variable speed control, it provides the precision needed for construction, woodworking, and general maintenance tasks. Its ergonomic design ensures user comfort during extended operation, making it a reliable tool for professional environments.

Technical Specifications

Rated Voltage	12 V
No Load Speed	0-700/min
Bit Capacity	10 mm
Tool Weight	1.04 kg
