

# 12V Motorcycle Battery for Starting and Powering Electrical Systems

This 12V motorcycle battery is designed for starting and powering motorcycle electrical systems. It features a durable casing, lead-acid construction, and terminals for secure connection.

## Product Overview

### Reliable Power for Motorcycles

This 12V motorcycle battery is engineered for consistent performance in starting and powering electrical systems. Featuring a robust lead-acid construction and a durable casing, it is built to withstand the demands of various motorcycle applications. Designed with clear maintenance indicators, this unit ensures reliable operation for both essential starting and auxiliary accessory power.

## Technical Specifications

Voltage	12 V
Model Identifier	12N9-3B
Construction	Lead-acid
Standards Compliance	ISO 3001, SAE

## Maintenance

### Fluid Level Indicators

- Upper Level
- Lower Level
