Product Overview

Intelligent Mosquito Repellent Lighting

This 12W LED intelligent bulb offers a dual-function solution for both illumination and pest control. Engineered with high thermal conductivity aluminum for efficient heat dissipation, it ensures long-lasting performance. The bulb features an integrated 1200 mAh lithium battery that provides emergency lighting during power outages, making it a reliable choice for homes, outdoor spaces, and parking areas.

Technical Specifications

Rated Power	12 W
Input Voltage	AC 85-265V
Repellent Wavelength	530-590nm (Golden Yellow)

Battery & Emergency

Battery Capacity	1200 mAh
Charging Time	3 H
Discharge Duration	4 H

Features

Key Features

- High thermal conductivity aluminum plate
- Removable 18650 lithium battery
- Segmented dimming capability
- Auto-start emergency function
- High IC constant current design

Applications

Suitable Environments

Residential, Outdoor, Parking Lots, Vehicle Use
