Product Overview

High-Performance Wire Wrapped Screen Pipe

This 13 3/8" continuous slot wire-wrapped screen pipe is engineered for superior filtration and sand control in demanding well environments. Constructed from high-quality 304L stainless steel, it offers excellent durability and corrosion resistance. The continuous slot design maximizes open area, ensuring optimal flow rates while effectively minimizing clogging for reliable long-term performance.

Technical Specifications

Unit Length

- Up to 6m
- 5.8m (container optimized)

Material Options

304 Stainless Steel, 304L Stainless Steel, 316 Stainless Steel, 316L Stainless Steel, Galvanized Carbon Steel

Outer Diameter

168.3 mm

Slot Size

0.5mm (customizable)

Minimum Open Area

14 %

Installation & Finishing

End Connections

Welding (Beveled) • Thread Coupling (STC) • Thread Coupling (LTC) • Thread Coupling (BTC) • Flange

Surface Treatments

Galvanized, Painted, Polished, Pickling, Passivation

Logistics

Packaging Options

- Bubble bag and woven bag
- Bundled
- Unbundled
- Wooden cases
