Product Overview

High-Capacity Single Tub Washer

This 13kg capacity single tub washing machine is designed for efficiency and durability, utilizing high-quality ABS and PP materials. It features a powerful 300RPM rotation speed and an adjustable wash timer ranging from 1 to 15 minutes, offering significant water and electricity savings compared to fully automatic models. Each unit undergoes rigorous testing on the assembly line and final quality control checks to ensure consistent, reliable performance for the end user.

Technical Specifications
