Product Overview

Modern 13-Pin Electrical Connectivity

The 13-pin 12V connector system was engineered to meet the increasing electrical demands of modern automotive towing. Designed to replace older 7-pin systems, this connector offers superior water resistance, enhanced stability, and high-quality contact reliability. With its intuitive latching mechanism and robust construction, it ensures a secure, compliant connection for all essential vehicle and trailer signaling functions.

Technical Specifications

Supported Functions

- Lighting
- Braking
- Auxiliary power
- Tail lights
- Turn signals
- Reverse lights

Number of Pins	13
Voltage Rating	12 V

Construction & Durability

Build Quality

Durable plastic housing • Weather-resistant • Spring-loaded cover • Secure locking mechanism

Key Features	Water-resistant, Stable contact, Secure latch, Standardized configuration
