Overview

A robust 130 HP tractor designed for versatility and field efficiency.

Robust Agricultural Performance

The 130 HP farm tractor is a powerful and versatile machine engineered for demanding agricultural tasks such as plowing, tilling, and hauling. It features a reliable direct-injection, water-cooled 6-cylinder engine designed for consistent performance in various field conditions. With its F16+R8 shuttle shift transmission and robust chassis, this tractor ensures optimal speed control and durability for long working hours.

Performance

Performance Metrics

130 HP

Engine Power

95.6 KW

Rated Power

2300 r/min

Rated Speed

Technical Specifications

Dimensions	5060 x 2345 x 2995 mm
Dry Mass (With Cab)	5350 kg

Engine & Drivetrain

Engine Configuration

- Direct injection
- Vertical water-cooled
- 4-stroke
- 6-cylinder

Transmission

F16+R8 Shuttle Shift

Clutch

LUK 12in., dual-function, independent, dry clutch

Operational Features

Fuel Tank Capacity

150 L

PTO Speed

760/1000 rpm

Linkage

II Rear Mount 3-point Linkage

Braking System

Static hydraulic pressure, double disc

Tire Specifications

14.9-26 (Front), 18.4-38 (Rear)
