

13A Fused Connection Unit with Neon Indicator

This 13A fused connection unit features a neon indicator to show power status. It is commonly used for connecting appliances and other electrical devices to the mains supply and includes a fuse holder for circuit protection.

Overview

Reliable Power Connection

This 13A fused connection unit is designed to provide a safe and reliable electrical connection for high-power appliances. Featuring a durable Bakelite panel and high-quality silver contact components, it ensures long-lasting performance and safety. The integrated neon indicator clearly displays power status, making it an ideal choice for residential, hotel, and commercial environments.
