

13x4.5 White Powder-Coated Steel Trailer Wheel

This 13x4.5 trailer wheel is made from sturdy steel. It has a white powder-coated finish for enhanced corrosion resistance.

Overview

Reliable Trailer Component

The 13x4.5 trailer wheel is a durable and reliable component designed for various trailer applications. Featuring a sturdy steel construction with a white powder-coated finish for enhanced corrosion resistance, this wheel is engineered to provide optimal load-bearing capacity and smooth rolling performance. It is an ideal solution for utility trailers, boat trailers, and other light-duty towing applications, offering a perfect balance of strength, durability, and value.
