

14-16T Heavy-Duty Forklift Truck

This heavy-duty forklift truck has a lifting capacity of 14-16 tons. It is designed for stability and maneuverability, ensuring safe and precise load handling in warehouses, ports, and construction sites.

Overview

Heavy-Duty Material Handling Solution

This 14-16 ton capacity heavy-duty forklift is engineered for demanding industrial environments, including ports, construction sites, and large-scale warehouses. It features a robust chassis paired with a high-performance engine and an advanced hydraulic system to ensure efficient, reliable operation under heavy loads. Designed with operator comfort and safety in mind, the unit includes an ergonomic cabin, intuitive controls, and essential safety systems like overload protection and emergency braking.
