

14-Inch Brick Cutter

This brick cutter is designed to make both straight and 45-degree angle cuts. It is 14 inches in size.

Overview

Professional Masonry Cutting Solution

This 14-inch brick cutter is engineered for precision in the building sector, capable of handling bricks, stones, concrete blocks, granite, marble, and porcelain gres. It offers versatile cutting options, allowing for both straight and 45-degree angle cuts by either pushing the sliding working table or tilting the cutting head. Designed for durability and safety, it includes a powerful motor with thermal protection and an integrated water cooling system to ensure clean, efficient operation on any job site.

Technical Specifications

Motor Power

2.2 kW

Power Output

3 Hp

Horsepower

Electrical Requirements

- 230V Single Phase
- 50Hz Frequency
- Thermal and Amperometrical Protection
- Switch with Release Coil
- Overheat Protection with Manual Reset

Cutting Capabilities

Supported Cut Styles

Straight Cuts • 45° Angle Cuts

Compatible Blade Sizes

Ø 350 mm, Ø 300 mm

Features

Key Equipment

- Sliding working table
- Tilting cutting head
